A group of 11 mountaineers embark on a new journey to climb one of the world's most dangerous peaks. All with different backgrounds, experience and skills, the hikers are headed to the Devil's Needle, located in the midst of the Brazilian jungle. But what was meant to be an adventure will change their destinies forever...

Now facing a torrential storm that brings with it a flash flood, the group is left stranded in the jungle. And when they discover that their trusted guide has lied to them, they have no hope of being found by the rescue team. Lost and injured, the climbers are confronted with a series of unexpected and chaotic events at every turn. As the odds of survival get tougher, the tension in the group rises and each character's story starts to surface, creating internal conflicts that will only make it harder to trust each other. Will human nature prove itself strong enough to survive against the power of mother nature?
