HOW IT WORKS

THE GIRLS Each episode, 3 exes will get together to fix our bachelor's love life. Each comes with a different experience of him as a boyfriend, from the one that got away to the summer fling.

THE GUY Our single wants to settle down but just can't seem to figure out why it's not happening for him!

THE TASK The Ex team will work with their ex to help him find love:

EMOTIONALLY: they will share insights and secrets that only ex-girlfriends have with a professional relationship coach. Our guy will then join for a personalized brand of "Ex therapy", helping him face up to his underlying issues.

PHYSICALLY: they will get him ready for a date, giving him a well-needed makeover and styling session.

THE DATE The team will audition single girls for a date with their ex- boyfriend. Will they all agree on the right girl for him? And will their rules for the date help him find a serious relationship?

At the end of the process, will he find a new love? Or will one of his exes want a 2nd chance with the new and improved version of him?
