HOW IT WORKS

- 3 top music judges will select only the best singers to become the 4 finalists and live like VIPs from the very first episode.
- But they shouldn't get too comfortable... in every episode talented hopefuls will try to steal a seat from 1 of them!
 - Even the viewers at home can challenge our finalists by submitting via the dedicated app.
- The chosen hopefuls must first audition and get unanimous approval from the judges before they can challenge a finalist to a singing face-off.
- In the face-off, only the audience can decide the winner!
- Will the finalist have managed to win the viewers' hearts and keep their seat, or will the new talent knock the finalist out of the game?
- As the season progresses, the tension and stakes rise. The 4 finalists will enjoy special privileges between and during the episodes that help them and allow viewers to get to know them.

But who will be crowned the winner in the season finale, when the final 4 fight it out in 3 gripping singing battles?
