What would you do if you woke up in the middle of the night to discover that you were in the middle of a TV game show?

While You Were Sleeping is the first game show that gives you money while you're fast asleep!

2 strong seasons on French Canada's VRAK TV!

Fun, edge-of-your-seat viewing!

Combination of knowledge-based trivia and physical missions

Family-oriented

Appeals to a wide audience

HOW IT WORKS:

- ★ In each episode one couple plays for a chance to win a cash prize.
- ★ BUT only one of them knows what's going on! The other participant is fast asleep and unaware that they are part of a game show!
- ★ To stay in the game, the contestant must answer 10 trivia questions correctly in the same room as the sleeping partner – all without waking them up!
 - > A correct answer and they move on to the next question
 - > An incorrect answer and they must perform a crazy, hilarious and (often!) noisy challenge
- ★ If the sleeping partner remains asleep until the final stage, they are awakened and asked a final, personal question to win the cash prize!
